

Amostragem de léxico para Gramática Categorial

Luiz Arthur Pagani

1 Por expressão linguística

1. $\langle \{\text{a/o}\}, (\text{N} \uparrow \text{S})/\text{N}_c, \lambda \Pi. \lambda \Lambda. \iota v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.1 e 4.2)
2. $\langle \text{alcançou}, ((\text{N} \setminus \text{S})/\text{N}), \text{A}_1 \rangle$
3. $\langle \text{algum(a)}, (\text{N} \uparrow \text{S})/\text{N}_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.3 e 4.4)
4. $\langle \text{ama}, ((\text{N} \setminus \text{S})/\text{N}), \text{A} \rangle$
5. $\langle \text{Ana}, \text{N}, \text{a}_1 \rangle$
6. $\langle \text{Antônio}, \text{N}, \text{a}_2 \rangle$
7. $\langle \text{Arthur}, \text{N}, \text{a} \rangle$
8. $\langle \text{Beatriz}, \text{N}, \text{b} \rangle$
9. $\langle \text{beijou}, (\text{N} \setminus \text{S})/\text{N}, \text{B}_4 \rangle$
10. $\langle \text{bola}, \text{N}_c, \text{B} \rangle$
11. $\langle \text{bolo}, \text{N}_c, \text{B}_1 \rangle$
12. $\langle \text{bolsa}, \text{N}_c, \text{B}_3 \rangle$
13. $\langle \text{bonit}\{\text{a/o}\}, \text{N}_c \setminus \text{N}_c, \lambda \Pi. \lambda v. ((\Pi v) \wedge (\text{B}_2 v)) \rangle$
14. $\langle \text{caiu}, \text{N} \setminus \text{S}, \text{C}_1 \rangle$
15. $\langle \text{cavalo}, \text{N}_c, \text{C}_4 \rangle$
16. $\langle \text{Claudia}, \text{N}, \text{c} \rangle$
17. $\langle \text{chutou}, (\text{N} \setminus \text{S})/\text{N}, \text{C}_5 \rangle$
18. $\langle \text{colocou}, ((\text{N} \setminus \text{S})/\text{SP})/\text{N}, \text{C}_3 \rangle$
19. $\langle \text{comprou}, (\text{N} \setminus \text{S})/\text{N}, \text{C}_2 \rangle$
20. $\langle \text{corre}, \text{N} \setminus \text{S}, \text{C} \rangle$
21. $\langle \text{correu}, \text{N} \setminus \text{S}, \text{C} \rangle$

22. $\langle \text{Curitiba}, N, c_1 \rangle$
23. $\langle \text{dançou}, N \setminus S, D \rangle$
24. $\langle \text{Daniel}, N, d \rangle$
25. $\langle \text{de}, SP/N, \lambda\nu.\nu \rangle$
26. $\langle \text{deslizou}, N \setminus S, D_1 \rangle$
27. $\langle \text{e}, (S \setminus S)/S, \lambda\Pi.\lambda\Lambda.(\Lambda \wedge \Pi) \rangle$
28. $\langle \text{e}, ((N \setminus S) \setminus (N \setminus S))/(N \setminus S), \lambda\Pi.\lambda\Lambda.\lambda v.((\Lambda v) \wedge (\Pi v)) \rangle$
29. $\langle \text{e}, ((S/N) \setminus (S/N))/(S/N), \lambda\Pi.\lambda\Lambda.\lambda v.((\Lambda v) \wedge (\Pi v)) \rangle$
30. $\langle \text{estante}, N_c, E \rangle$
31. $\langle \text{fez o mesmo}, (N \setminus S)|(N \setminus S), \lambda\Pi.\Pi \rangle$
32. $\langle \text{fuma}, N \setminus S, F \rangle$
33. $\langle \text{forte}, N_c \setminus N_c, \lambda\Pi.\lambda v.((\Pi v) \wedge (F_2 v)) \rangle$
34. $\langle \text{furou}, (N \setminus S)/N, F_1 \rangle$
35. $\langle \text{gosta}, (N \setminus S)/SP, G_1 \rangle$
36. $\langle \text{grande}, N_c \setminus N_c, \lambda\Pi.\lambda v.((\Pi v) \wedge (G v)) \rangle$
37. $\langle \text{Grosbilda}, N, g \rangle$
38. $\langle \text{homem}, N_c, H \rangle$
39. $\langle \text{levou}, ((N \setminus S)/SP)/N, L \rangle$
40. $\langle \text{livro}, N_c, L_1 \rangle$
41. $\langle \text{Marcos}, N, m_1 \rangle$
42. $\langle \text{Maria}, N, m \rangle$
43. $\langle \text{menin}\{\text{a/o}\}, N_c, M_1 \rangle$
44. $\langle \text{mulher}, N_c, M \rangle$
45. $\langle \text{n}\{\text{a/o}\}, SP/N_c, \lambda\nu.\nu \rangle$
46. $\langle \text{não}, (N \setminus S)/(N \setminus S), \lambda\Pi.\lambda v.\neg(\Pi v) \rangle$
47. $\langle \text{odeia}, (N \setminus S)/N, O \rangle$
48. $\langle \text{Paula}, N, p_1 \rangle$
49. $\langle \text{Pedro}, N, p \rangle$
50. $\langle \text{que}, (N_c \setminus N_c)/(S \uparrow N), \lambda\Pi.\lambda\Lambda.\lambda v.((\Lambda v) \wedge (\Pi v)) \rangle$
 (pronome relativo generalizado; substitui 4.5 e 4.6)

51. $\langle \text{redond}\{\text{a/o}\}, N_c \setminus N_c, \lambda \Pi. \lambda v. ((\Pi v) \wedge (R v)) \rangle$
52. $\langle \text{saiu}, N \setminus S, S \rangle$
53. $\langle \text{se}, ((N \setminus S) / ((N \setminus S) / N)) | N, \lambda v. \lambda \Pi. (\Pi v) \rangle$
(pronome)
54. $\langle \text{sua}, (N | N) / N_c, \lambda \Pi. \Pi \rangle$
55. $\langle \text{surpreendeu}, (N \setminus S) / N, S_1 \rangle$
56. $\langle \text{tod}\{\text{a/o}\}, (N \uparrow S) / N_c, \lambda \Pi. \lambda \Lambda. \forall v. ((\Pi v) \rightarrow (\Lambda v)) \rangle$
(escopo genrealizado; substitui 4.7 e 4.8)
57. $\langle \text{um(a)}, (N \uparrow S) / N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.9 e 4.10)

2 Por classes sintáticas

2.1 N (nomes próprios)

1. $\langle \text{Ana}, N, a_1 \rangle$
2. $\langle \text{Antônio}, N, a_2 \rangle$
3. $\langle \text{Arthur}, N, a \rangle$
4. $\langle \text{Beatriz}, N, b \rangle$
5. $\langle \text{Claudia}, N, c \rangle$
6. $\langle \text{Curitiba}, N, c_1 \rangle$
7. $\langle \text{Daniel}, N, d \rangle$
8. $\langle \text{Grosbilda}, N, g \rangle$
9. $\langle \text{Marcos}, N, m_1 \rangle$
10. $\langle \text{Maria}, N, m \rangle$
11. $\langle \text{Paula}, N, p_1 \rangle$
12. $\langle \text{Pedro}, N, p \rangle$

2.2 $N \setminus S$ (verbos intransitivos)

1. $\langle \text{caiu}, N \setminus S, C_1 \rangle$
2. $\langle \text{corre}, N \setminus S, C \rangle$
3. $\langle \text{correu}, N \setminus S, C \rangle$
4. $\langle \text{dançou}, N \setminus S, D \rangle$

5. $\langle \text{deslizou}, N \setminus S, D_1 \rangle$
6. $\langle \text{fuma}, N \setminus S, F \rangle$
7. $\langle \text{saiu}, N \setminus S, S \rangle$

2.3 $(N \setminus S)/N$ (verbos transitivos diretos)

1. $\langle \text{alcançou}, ((N \setminus S)/N), A_1 \rangle$
2. $\langle \text{ama}, ((N \setminus S)/N), A \rangle$
3. $\langle \text{beijou}, (N \setminus S)/N, B_4 \rangle$
4. $\langle \text{chutou}, (N \setminus S)/N, C_5 \rangle$
5. $\langle \text{comprou}, (N \setminus S)/N, C_2 \rangle$
6. $\langle \text{furou}, (N \setminus S)/N, F_1 \rangle$
7. $\langle \text{odeia}, (N \setminus S)/N, O \rangle$
8. $\langle \text{surpreendeu}, (N \setminus S)/N, S_1 \rangle$

2.4 $(N \setminus S)/SP$ (verbos transitivos indiretos)

1. $\langle \text{gosta}, (N \setminus S)/SP, G_1 \rangle$

2.5 $((N \setminus S)/SP)/N$ (verbos bitransitivos)

1. $\langle \text{colocou}, ((N \setminus S)/SP)/N, C_3 \rangle$
2. $\langle \text{levou}, ((N \setminus S)/SP)/N, L \rangle$

2.6 $(N \setminus S)/(N \setminus S)$ (negação)

1. $\langle \text{não}, (N \setminus S)/(N \setminus S), \lambda \Pi. \lambda v. \neg(\Pi v) \rangle$

2.7 N_c (nomes comuns)

1. $\langle \text{bola}, N_c, B \rangle$
2. $\langle \text{bolo}, N_c, B_1 \rangle$
3. $\langle \text{bolsa}, N_c, B_3 \rangle$
4. $\langle \text{cavalo}, N_c, C_4 \rangle$
5. $\langle \text{estante}, N_c, E \rangle$
6. $\langle \text{homem}, N_c, H \rangle$
7. $\langle \text{livro}, N_c, L_1 \rangle$
8. $\langle \text{menin}\{\text{a/o}\}, N_c, M_1 \rangle$
9. $\langle \text{mulher}, N_c, M \rangle$

2.8 $N_c \setminus N_c$ (adjetivos)

1. $\langle \text{bonit}\{\text{a/o}\}, N_c \setminus N_c, \lambda \Pi. \lambda v. ((\Pi v) \wedge (B_2 v)) \rangle$
2. $\langle \text{forte}, N_c \setminus N_c, \lambda \Pi. \lambda v. ((\Pi v) \wedge (F_2 v)) \rangle$
3. $\langle \text{grande}, N_c \setminus N_c, \lambda \Pi. \lambda v. ((\Pi v) \wedge (G v)) \rangle$
4. $\langle \text{redond}\{\text{a/o}\}, N_c \setminus N_c, \lambda \Pi. \lambda v. ((\Pi v) \wedge (R v)) \rangle$

2.9 $(S \setminus S)/S$ (conjunção de sentenças)

1. $\langle e, (S \setminus S)/S, \lambda \Pi. \lambda \Lambda. (\Lambda \wedge \Pi) \rangle$

2.10 $((S/N) \setminus (S/N))/(S/N)$ (conjunção de predicados)

1. $\langle e, ((N \setminus S) \setminus (N \setminus S))/(N \setminus S), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$

2.11 $((S/N) \setminus (S/N))/(S/N)$ (conjunção de um não-constituinte)

1. $\langle e, ((S/N) \setminus (S/N))/(S/N), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$

2.12 $(N_c \setminus N_c)/(S \uparrow N)$

1. $\langle \text{que}, (N_c \setminus N_c)/(S \uparrow N), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$
(pronome relativo generalizado; substitui 4.5 e 4.6)

2.13 $(N \uparrow S)/N_c$

1. $\langle \{\text{a/o}\}, (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \lambda v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.1 e 4.2)
2. $\langle \text{algum(a)}, (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.3 e 4.4)
3. $\langle \text{tod}\{\text{a/o}\}, (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \forall v. ((\Pi v) \rightarrow (\Lambda v)) \rangle$
(escopo genrealizado; substitui 4.7 e 4.8)
4. $\langle \text{um(a)}, (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.9 e 4.10)

2.14 Pronome

1. $\langle \text{se}, ((N \setminus S)/((N \setminus S)/N))|N, \lambda v. \lambda \Pi. (\Pi v) \rangle$
2. $\langle \text{sua}, (N|N)/N_c, \lambda \Pi. \Pi \rangle$
3. $\langle \text{fez o mesmo}, (N \setminus S)|(N \setminus S), \lambda \Pi. \Pi \rangle$

2.15 Preposição

1. $\langle \text{de}, SP/N, \lambda\nu.\nu \rangle$
2. $\langle \text{n}\{\text{a}/\text{o}\}, SP/N_c, \lambda\nu.\nu \rangle$

3 Por interpretação semântica

3.1 Com constante não-lógica

1. $\langle \text{Arthur}, N, a \rangle$
2. $\langle \text{Ana}, N, a_1 \rangle$
3. $\langle \text{Antônio}, N, a_2 \rangle$
4. $\langle \text{ama}, ((N \setminus S)/N), A \rangle$
5. $\langle \text{alcançou}, ((N \setminus S)/N), A_1 \rangle$
6. $\langle \text{Beatriz}, N, b \rangle$
7. $\langle \text{bola}, N_c, B \rangle$
8. $\langle \text{bole}, N_c, B_1 \rangle$
9. $\langle \text{bonit}\{\text{ao}\}, N_c \setminus N_c, \lambda\Pi.\lambda v.((\Pi v) \wedge (B_2 v)) \rangle$
10. $\langle \text{bolsa}, N_c, B_3 \rangle$
11. $\langle \text{beijou}, (N \setminus S)/N, B_4 \rangle$
12. $\langle \text{Claudia}, N, c \rangle$
13. $\langle \text{Curitiba}, N, c_1 \rangle$
14. $\langle \text{corre}, N \setminus S, C \rangle$
15. $\langle \text{correu}, N \setminus S, C \rangle$
16. $\langle \text{caiu}, N \setminus S, C_1 \rangle$
17. $\langle \text{comprou}, (N \setminus S)/N, C_2 \rangle$
18. $\langle \text{colocou}, ((N \setminus S)/SP)/N, C_3 \rangle$
19. $\langle \text{cavalo}, N_c, C_4 \rangle$
20. $\langle \text{chutou}, (N \setminus S)/N, C_5 \rangle$
21. $\langle \text{Daniel}, N, d \rangle$
22. $\langle \text{dançou}, N \setminus S, D \rangle$
23. $\langle \text{deslizou}, N \setminus S, D_1 \rangle$

24. $\langle \text{estante}, \textcolor{red}{N_c}, E \rangle$
25. $\langle \text{fuma}, \textcolor{brown}{N} \setminus S, F \rangle$
26. $\langle \text{furou}, ((\textcolor{brown}{N} \setminus S) / N), \textcolor{blue}{F}_1 \rangle$
27. $\langle \text{forte}, \textcolor{brown}{N_c} \setminus \textcolor{red}{N_c}, \lambda \Pi. \lambda v. ((\Pi v) \wedge (F_2 v)) \rangle$
28. $\langle \text{Grosbilda}, \textcolor{red}{N}, \textcolor{blue}{g} \rangle$
29. $\langle \text{grande}, \textcolor{brown}{N_c} \setminus \textcolor{red}{N_c}, \lambda \Pi. \lambda v. ((\Pi v) \wedge (G v)) \rangle$
30. $\langle \text{gosta}, (\textcolor{brown}{N} \setminus S) / SP, \textcolor{blue}{G}_1 \rangle$
31. $\langle \text{homem}, \textcolor{brown}{N_c}, H \rangle$
32. $\langle \text{levou}, ((\textcolor{brown}{N} \setminus S) / SP) / \textcolor{red}{N}, \textcolor{blue}{L} \rangle$
33. $\langle \text{livro}, \textcolor{brown}{N_c}, \textcolor{blue}{L}_1 \rangle$
34. $\langle \text{Maria}, \textcolor{red}{N}, m \rangle$
35. $\langle \text{Marcos}, \textcolor{red}{N}, \textcolor{blue}{m}_1 \rangle$
36. $\langle \text{mulher}, \textcolor{brown}{N_c}, M \rangle$
37. $\langle \text{menin}\{\text{a/o}\}, \textcolor{brown}{N_c}, \textcolor{blue}{M}_1 \rangle$
38. $\langle \text{odeia}, ((\textcolor{brown}{N} \setminus S) / N), \textcolor{blue}{O} \rangle$
39. $\langle \text{Pedro}, \textcolor{brown}{N}, \textcolor{blue}{p} \rangle$
40. $\langle \text{Paula}, \textcolor{brown}{N}, \textcolor{blue}{p}_1 \rangle$
41. $\langle \text{redond}\{\text{a/o}\}, \textcolor{brown}{N_c} \setminus \textcolor{red}{N_c}, \lambda \Pi. \lambda v. ((\Pi v) \wedge (R v)) \rangle$
42. $\langle \text{saiu}, \textcolor{brown}{N} \setminus S, \textcolor{blue}{S} \rangle$
43. $\langle \text{surpreendeu}, (\textcolor{brown}{N} \setminus S) / \textcolor{red}{N}, \textcolor{blue}{S}_1 \rangle$

3.2 Sem constantes não-lógicas

1. $\langle \text{de}, \textcolor{red}{SP/N}, \lambda \nu. \nu \rangle$
2. $\langle \text{n}\{\text{a/o}\}, \textcolor{red}{SP/N_c}, \lambda \nu. \nu \rangle$
3. $\langle \text{não}, (\textcolor{brown}{N} \setminus S) / (\textcolor{brown}{N} \setminus S), \lambda \Pi. \lambda v. \neg(\Pi v) \rangle$
4. $\langle \text{e}, (\textcolor{brown}{S} \setminus S) / S, \lambda \Pi. \lambda \Lambda. (\Lambda \wedge \Pi) \rangle$
5. $\langle \text{e}, ((\textcolor{brown}{N} \setminus S) \setminus (\textcolor{brown}{N} \setminus S)) / (\textcolor{brown}{N} \setminus S), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$
6. $\langle \text{e}, ((S / N) \setminus (S / N)) / (S / N), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$
7. $\langle \text{que}, (\textcolor{brown}{N_c} \setminus \textcolor{red}{N_c}) / (\textcolor{brown}{S} \uparrow N), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$
(pronome relativo generalizado; substitui 4.5 e 4.6)

8. $\langle \{a/o\}, (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \nu v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.1 e 4.2)
9. $\langle \text{um}(a), (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.9 e 4.10)
10. $\langle \text{algum}(a), (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(escopo generalizado; substitui 4.3 e 4.4)
11. $\langle \text{tod}\{a/o\}, (N \uparrow S)/N_c, \lambda \Pi. \lambda \Lambda. \forall v. ((\Pi v) \rightarrow (\Lambda v)) \rangle$
(escopo genrealizado; substitui 4.7 e 4.8)
12. $\langle \text{se}, ((N \setminus S) / ((N \setminus S) / N)) | N, \lambda v. \lambda \Pi. (\Pi v) \rangle$
13. $\langle \text{sua}, (N|N)/N_c, \lambda \Pi. \Pi \rangle$
14. $\langle \text{fez o mesmo}, (N \setminus S) | (N \setminus S), \lambda \Pi. \Pi \rangle$

4 Itens superados

1. $\langle \{a/o\}, (S/(N \setminus S))/N_c, \lambda \Pi. \lambda \Lambda. \nu v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(descrição definida para sujeito; substituído por 1.1/2.13.1/3.2.8)
2. $\langle \{a/o\}, ((S/N) \setminus S)/N_c, \lambda \Pi. \lambda \Lambda. \nu v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(descrição definida para objeto direto; substituído por 1.1/2.13.1/3.2.8)
3. $\langle \text{algum}(a), (S/(N \setminus S))/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(quantificador existencial para sujeito; substituído por 1.3/2.13.2/3.2.10)
4. $\langle \text{algum}(a), ((S/N) \setminus S)/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(quantificador existencial para objeto direto; substituído por 1.3/2.13.2/3.2.10)
5. $\langle \text{que}, (N_c \setminus N_c) / (N \setminus S), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$
(pronome relativo para lacuna no sujeito; substituído por 1.50/2.12.1/3.2.7)
6. $\langle \text{que}, (N_c \setminus N_c) / (S/N), \lambda \Pi. \lambda \Lambda. \lambda v. ((\Lambda v) \wedge (\Pi v)) \rangle$
(pronome relativo para lacuna no objeto direto; substituído por 1.50/2.12.1/3.2.7)
7. $\langle \text{tod}\{a/o\}, (S/(N \setminus S))/N_c, \lambda \Pi. \lambda \Lambda. \forall v. ((\Pi v) \rightarrow (\Lambda v)) \rangle$
(quantificador universal para sujeito; substituído por 1.56/2.13.3/3.2.11)
8. $\langle \text{tod}\{a/o\}, ((S/N) \setminus S)/N_c, \lambda \Pi. \lambda \Lambda. \forall v. ((\Pi v) \rightarrow (\Lambda v)) \rangle$
(quantificador universal para objeto direto; substituído por 1.56/2.13.3)/3.2.11)
9. $\langle \text{um}(a), (S/(N \setminus S))/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(quantificador existencial para subjeito; substituído por 1.57/2.13.4/3.2.9)
10. $\langle \text{um}(a), ((S/N) \setminus S)/N_c, \lambda \Pi. \lambda \Lambda. \exists v. ((\Pi v) \wedge (\Lambda v)) \rangle$
(quantificador existencial para objeto direto; substituído por 1.57/2.13.4/3.2.9)
